--------------------	---------	--------------	-----------------

PROJECTS

1. Library Management System Using ASP.NET Core

Developed a complete ASP.NET Core MVC web application for digital library management. Features include book inventory, member management, borrow & issue tracking, overdue fine calculation, role-based authentication, interactive dashboard with Chart.js, PDF/Excel export, print reports, and SQL Server integration.

GitHub: https://github.com/mdkawsarjomadder/library_management_ystem

2. Assignment & Submission Management System

Developed a full-stack role-based web application using ASP.NET Core Web API, Next.js, React, TypeScript, and SQL Server. Implemented JWT authentication, Admin/Teacher/Student authorization, assignment management, submission tracking, marks & feedback, RESTful APIs, Swagger/OpenAPI, validation, error handling, and unit testing.
