📋 Career Objective

Motivated and detail-oriented Junior Software Developer with a strong foundation in C#, .NET, ASP.NET Core, SQL Server, and modern web technologies. Seeking an entry-level Software Engineer position where I can apply my technical skills, contribute to innovative software solutions, collaborate with experienced professionals, and continuously grow as a software developer.

🎓 Education

BSc in Computer Science & Engineering,
Bangladesh University of Business and Technology (BUBT)
CGPA: 2.90 /4.00

April – 2026

🧠 Technical Skills

Languages: C#, JavaScript, TypeScript, SQL
Frontend: React.js, HTML5, CSS3.
Backend: ASP.NET Core, .NET, Entity Framework Core, LINQ, REST APIs.
Database: SQL Server, PostgreSQL, MySQL & Pattern Clean Architecture.
Tools & Concepts: Git/GitHub, Postman, DSA, OOP, SOLID, SDLC & MS Office Suite.

🏠 Training

Web Development Course
Learning Web Design & Development in (BDTask Limited), Dhaka | Duration: 3 Months.

📁 Projects

Job Portal & Recruitment Management System | JP- 🔗

Developed a full-stack role-based web application using PostgreSQL, Express.js, React, Node.js, Prisma ORM, and Tailwind CSS. Implemented JWT authentication, Employer/Applicant authorization, job posting & lifecycle management, application submission, real-time status tracking (Shortlist/Reject), responsive filtering, RESTful APIs, and form validation.

Library Management System Using ASP.NET Core | LMS- 🔗

Developed a complete ASP.NET Core MVC web application for digital library management. Features include book inventory, member management, borrow & issue tracking, overdue fine calculation, role-based authentication, interactive dashboard with Chart.js, PDF/Excel export, print reports, and SQL Server integration.

Assignment & Submission Management System | ASMS- 🔗

Developed a full-stack role-based web application using ASP.NET Core Web API, Next.js, React, TypeScript, and SQL Server. Implemented JWT authentication, Admin/Teacher/Student authorization, assignment management, submission tracking, marks & feedback, RESTful APIs, Swagger/OpenAPI, validation, error handling, and unit testing.
